Dear clients and partners,

Summing up the year of 2024, which is considered special in itself, we can assert that strategic mind, technological leadership and innovative values can provide sustainable results even in the terms of global uncertainties.

IDBank does not simply adapt to changes; we form new standards for the banking system. Our team is committed to innovation, transparency and responsible management, which allows us to build long-term relationships with you, our investors and customers.

Today, we can see our efforts turning into trust, expanding the digital ecosystem and strengthening the bank's position in the market; our main asset is the guarantee of trust. Thanks to this, the bank develops with confidence and a clear view of the future.

The IDBank's Council keeps on implementing a sustainable growth strategy, supporting the management team and creating a solid foundation for further achievements. We are confident that the combination of a strong team, digital solutions and a deep sense of responsibility towards society is the foundation of the Bank of the future.

Thank you for your partnership, trust and joint journey. We are proud that IDBank is not only a financial institution, but also a reliable ally on the path to achieving your goals.

Best regards, Chairman of the Council Artur Javadyan

Message from the Chairman of the Management Board

Mher Abrahamyan Chairman of the Management Board

Born on October 16, 1975.

In 1997 graduated from the Yerevan Institute of National Economy, faculty of Management and Economic Relations; in 2004 Fletcher School of Law and Diplomacy, Tufts University, USA.

Has qualification of CFA I, II levels.

2007-2012 served as the Head of Banking System Regulation Division within the CBA Financial System Regulation Department.

During 2012 - 2018, held the position of the Head of Financial System Regulation Department.

From 2019 to today, he is the chairman of the Board of IDBank.

Dear partners and clients,

The past year was another year of significant achievements, steady growth and technological progress for IDBank. We go on with confident implementation of our strategy, promoting digital transformation and creating long-term value for our clients and partners.

According to the results of the year, we are among the top five most profitable banks in Armenia, achieving a return on equity (ROE) of 22.9%, which exceeds our strategic goal of 20%. We are confidently moving forward, investing in innovation, strengthening capital and expanding our customer base.

I would especially like to note the development of the BNPL (Buy Now - Pay Later). In 2024, the volume of transactions with this product exceeded 2.6 million, which confirms the high demand for flexible financial solutions. We have also actively expanded the QR POS infrastructure, the number of which has reached 22,700 across the country.

In addition to digital achievements, we are proud of the expansion of our physical presence. The new branch "Old Yerevan", opened in 2024, has become a symbol of the fusion of tradition and innovation, we already have representative branches in some regions, providing an even higher level of comfort for customers.

One of the important events of the past year was the successful introduction of idcoin - an innovative loyalty tool and a new stage in the development of the bank's digital ecosystem. This is not just a digital asset, but a new approach to interacting with customers, a new manifestation of loyalty towards them.

In June 2024, the international Moody's rating agency upgraded IDBank's rating by several scales at once, which is another proof of trust and sustainable development, and Armenia's sovereign rating remains Ba3 with a stable outlook.

In 2025, IDBank also has ambitious plans and will invest all its potential to maintain and even exceed the high benchmark it has set.

We thank our clients and partners for their loyalty and trust, assuring us that we will continue to move forward for the sake of your goals and our common future. We are also grateful to our team for their dedicated and honest work; it is thanks to them that today we have the indicators and successes that we are proud of.

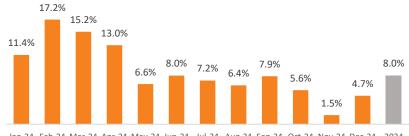

Best regards,

Chairman of the Management Board of "ID Bank" CJSC

Our strategic results

Karen Nalbandyan Business Development Director

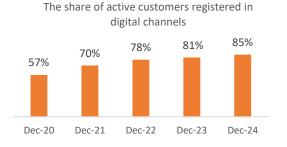

As we close year 2024, I'm proud to share that we have not only advanced our strategic goals, but also strengthened our role as a service provider and true ecosystem creator. By moving beyond traditional banking, we have delivered integrated and customer-centric solutions that bring lasting value to both individuals and businesses.

At IDBank, our mission remains the same: to provide an exceptional experience for every customer by offering fast, convenient, and secure remote services. Over the past year, we have expanded the range of our digital products and services, building a complete ecosystem that covers daily banking, financial and transactional services, BNPL solutions, and loyalty programs.

Already, over 130,000 customers have been rewarded through our idcoin loyalty system – reflecting our promise to deliver real value at every stage of their journey with us.

In 2024 we recorded a dynamic growth in bank's strategic areas. By the end of the year, our innovative BNPL solution <u>Rocket line</u> became available at more than 22,700 offline and online payment points, of which 10,200 provided interest-free installments (Rocket line 0%). The number of purchases via Rocket line increased by 84%, while the amount of installment loans provided increased by 90%. Rocket line 0% transactions doubled for the second consecutive year, highlighting the growing trust customers place in our services.

We have further strengthened our leadership in digital retail, card products and payment solutions. The total number of issued cards in 2024 exceeded 520 000, while the volume of transactions increased by 28%. Non-cash transactions volume carried out using our cards, online and QR code payments, as well as by our POS/vPOS comprised 25% of all non-cash payments in the Armenian market.

In 2024, we introduced a new and upgraded version of the IDBusiness mobile application, offering expanded functionality and a simpler interface for business customers, whose number increased by 33%, exceeding 28,000.

As of the end of 2024, 85% of our active clients are registered in the Bank's digital platforms, and more than 80% of them are active in the digital channels on a monthly basis.

idcoin_ new loyalty tool in the market

In April 2024, as part of our ongoing commitment to enhance customer experience and digital engagement, we successfully launched the **idcoin** loyalty program, designed to reward our valued clients for their continued trust and engagement with our Ecosystem.

It is a unique and innovative initiative that allows customers to accumulate loyalty points when using Bank's products and services.

- The September's beneficiary was the "Munk" Tech School part of the "ES" Educational Foundation established in 2022 in Artsakh, which provides technological education to children in various regions of Armenia. The collected amount of AMD 4,093,527 was directed to a program of involving over 100 new applicants from different communities.
- The entire October "one dram" fund, amounting to AMD 4,401,021, was transferred to the "Children of Armenia" Charitable Foundation to support educational programs for children living in the regions.

- The amount of AMD 4,479,792 accumulated in November was allocated to the Armenia Tree Project's "Backyard Nurseries" program. In addition to being environmental, the program also has a significant social component: it improves the living standards of our compatriots living in rural areas.
- During December, the collected amount of AMD 5,119,225 was transferred to the "Children of the Regions in the Regions" Foundation for the annual regional forum "Face to Face: Dialogue Between Generations"

In 2024, the Bank also implemented the "By Your Side" social support program aimed at large families from Artsakh. The beneficiaries of the nine-month program were 150 children from 42 Artsakh families. Each child received a monthly transfer of AMD 40,000 in idcoin from the Bank.

Financial Results

Lilit Sargsyan Financial Director

In 2024, the Bank outperformed its target indicators, achieving high profitability compared to the market average.

As of the end of 2024 the total assets of IDBank amounted to AMD 422 bn, thus recording 15% annual growth. The Bank increased its share of loans and advances to customers in assets to 48% (AMD 201 bn). The loan portfolio growth is due to the growth of loans to individuals (+29%) and loans to the legal entities (+20%).

By the end of 2024 the total liabilities of the Bank amounted to AMD 344 bn, around 70% of which were current accounts, deposits of clients, and debt securities issued by the Bank.

5th Position by ROE

22.9%

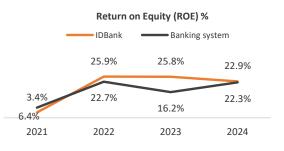

4th Position by ROA

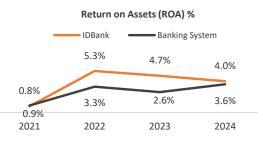

4.0%

The bank recorded a net profit of AMD 15,8 bn. As a result, the bank secured the 5th position in the market by return on equity (ROE) with 22.9% and 4th position by return on assets (ROA) with 4.0%.

The main factors contributing to the high level of profitability is the net interest income (18% growth) and net non-interest income, in particular, the Bank is one of the leaders in the market by the net income from trading operations recording AMD 9,8 bn. The bank will continue striving for high levels of profitability by ensuring a broad diversification of its operating income structure.

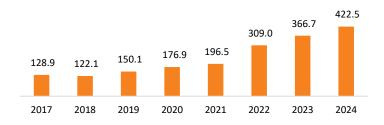

Considering that the Bank's capital adequacy and liquidity levels are quite high and the Bank's net impairments are relatively low, the Bank has ample opportunities to expand its operations and implement new projects without compromising the Bank's financial stability continuously creating long-term sustainable value for all its stakeholders.

Our Staff

Thanks to our team and the teamwork, 2024 was also distinguished by progress, development, significant achievements and the implementation of set goals. Thanks to the team's dedication and unity around a single goal, it became possible to ensure high performance, create new values, implement new ideas and exceed the results achieved in previous years.

The Bank is continuously working to improve the team's working environment, create even safer and more attractive conditions. The Bank is constantly developing and expanding financial and non-financial motivation systems for employees.

A number of events were initiated during 2024, to increase team satisfaction, continuous professional growth, development, improvement of skills and acquisition of new knowledge.

Continuous education and development are part of the internal culture of the Bank, and in this regard, internal corporate and educational portals, which create wide opportunities for employees, play an important role. The Bank continues to attach importance to the continuous development and international qualifications of middle and senior managers and, for this purpose, cooperates with the best trainers in the field.

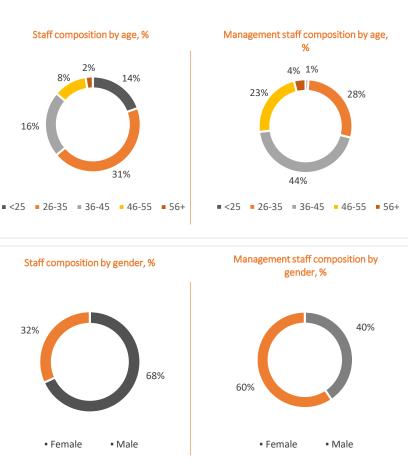

During the year, a new model of the evaluation system was also introduced for employees, which made the employee's annual evaluation more transparent. The evaluation system allowed managers not only to assess the potential of employees for promotion, but also to form a base of potential successors for management positions in the Bank.

The year was also distinguished by various team events, which made the working relationships of our employees more close and warm, strengthening the important values and principles of partnership.

Sona Manucharyan Human Capital Management Director

The number of active employees of the Bank as of the end of 2024.

Team and Corporate culture

We are a team - teamwork is one of the core values of the Bank and is the pillar of the formation of corporate culture, as well as a mandatory condition for achieving success.

This year, many team and corporate events were organized once again, along with continuous strategic meetings for the development of teamwork, as well as employee performance-based incentives.

Many events organized by the bank gave employees the opportunity to communicate outside of work and support various social projects together. We continued to give employees the opportunity to work in a more flexible working mode, to use the opportunity for smooth work in remote and offline modes.

During 2024, the staff became part of corporate social responsibility programs supporting children, soldiers, displaced persons from Artsakh, residents of border villages, as well as the environment.

Compensation and Motivation

The Bank focuses on analyzing the remuneration and benefits market of the financial and banking sector and the constant monitoring of the current trends, as well as the provision of timely and appropriate response.

The Bank encourages employees in both financial and non-financial ways. The Bank's benefits package is constantly reviewed and updated.

Meetings with the Chairman of the Management Board were organized with the employees who showed the best performance, valuable gifts were provided and an opportunity to discuss work successes and further professional development in such an environment.

Annual employee performance appraisals are continuously improved as an element of the Bank's employee reward culture.

Employee recruitment policy

During 2024, the Bank's team was supplemented with 272 new employees.

Continuing to focus on internal staff development and advancement, approximately 20%-n of vacancies were filled through internal candidates, filling both specialist and managerial positions.

Working with students is an important part of the Bank's staff recruitment policy, combining the formation of novice specialists and the process of attracting leading specialists of the field to our ranks.

Quarterly meetings of Managers

In 2024, **quarterly meetings of Managers** took place. The purpose of these meetings is to create a platform where managers at all levels can come together to share insights about the outcomes of their work, achievements, and existing challenges, while also becoming part of discussions of strategic importance for the Bank.

Corporate culture and internal communication

Adhering to our values and principles, the Bank continues to develop its corporate culture and internal communication channels.

Thanks to the corporate communication platform, employees have the opportunity to get acquainted with current news and changes, take part in surveys and make suggestions, participate in various interesting online contests and interactive surveys.

Cooperation with students: IDream program

Quality education is one of our priorities. The Bank actively cooperates with a number of higher education institutions and participates to a certain extent in non-formal education, providing students with the opportunity to get acquainted with the banking sector.

In 2024 the Bank organized the IDream training program for students 3 times, , enabling another 78 recent graduates to start their careers with the Bank. Thanks to this program, all students receive theoretical and practical knowledge of the financial and banking sector, develop skills that are necessary for a novice employee of the banking sector.

Staff training and development

During the year, the Bank's Training and Development Center organized and supervised more than 200 online and offline training courses, shared various materials, interesting development literature and presentations. Employees have the opportunity to be trained not only by participating in external or internal courses, but also through the online platform, at convenient for them schedule and speed.

During 2024, 85% of employees were trained, 74% of whom participated in internal training courses, and 26% were trained by participating in external courses.

The Bank constantly encourages and supports employees to obtain international qualifications and certifications, and also aims to establish a requirement for international qualifications for top and middle managers, providing financial support in this process.

Overall liquidity normative N2(1)

Main approaches to risk management

Credit risk management

In order to mitigate risks emerging in the lending process the Bank places the following principles within the lending process:

- Presence of loan purposefulness and sources of repayment
- The subject of pledge and the sensitivity of the latter to economic and market changes, as well as compliance with the loan/pledge ratio limits
- Current state of the economy sector of the potential borrower's activity, the experience of activities of the applicant in the given sector, the position in the sector, the competition degree and competition in the sector
- Presence of an operating business of the potential borrower, sustainable level of gross profit margin and/or good credit history
- Defining the limits of indicators describing the financial state of the potential borrower

Credit risk management is also implemented by defining the credit risk appetite and assessing the riskiness of the Bank's overall portfolio, developing and continuously updating scoring models.

Liquidity risk management

In order to assess and limit the liquidity risk, the Bank follows both the main economic normatives of liquidity (general, current, LCR, NSFR liquidity normstives) and their internal stricter limits on a daily basis.

In addition to the above, liquidity risk management is also implemented through the Liquidity Gap (GAP) model and stress testing.

Interest rate risk management

For the purpose of evaluation and limitation of the interest rate risk the bank performs interest rate evaluation based on interest rates in the market and brings them in line with the market indicators, constantly controls the maturity gap between assets and liabilities sensitive to interest rate, and in case of change of the market interest rates the risk of possible losses of the Bank as a result of those changes is being brought down to the minimum through quick response.

Foreign currency risk management

For the purpose of foreign exchange risk management, the Bank manages foreign exchange open positions, following the maintenance of the limits of the established foreign exchange risk management normative and benchmark indicators.

Operational risk management

For the purpose of identification and classification of operational risks the Bank performs monitoring of risks, maintains a database of operational risk incidents and identification of fraud risk

The bank takes continuous steps in the directions of developing information security systems and preventing online fraud.

Country risk management

In case of conclusion of debit transaction with organizations registered and/or actually operating in other countries, opening correspondent accounts and assuming off-blanace contingent liabilities, the Bank performs evaluation of the risk of the given country of that organization at the moment of conclusion of a transaction with the given country for the first time and in the future as well, based on the rating assigned to the given country by one of the international rating companies (Moody's, Standard&Poor's, Fitch) and the limits defined by the internal procedure.

Money laundering and terrorist financing risks (ML/TF risks)

In order to prevent financial crimes in the system, and provide compliance with international sanctions, Bank defined AML and CTF measures including customer due diligence, suspicious nature of clients' activities and transactions.

Bank implemented software automation solutions (such as Siron analytical solutions, CRM, and others) to effectively detect and prevent illicit activities in real time and periodically throughout the business relationship, as well as keep Bank compliant with AML and sanctions regulations.

Main approaches to risk management

Reputational risk management

Reputational risk management aims at identifying the directions of the negative public opinion during the normal course of business of "IDBank" CJSC and defining the main directions of measures towards prevention/minimization of the reputational risk by the Bank.

The regulatory field applied in the Bank in terms of the abovementioned risks is regulated by internal legal acts of IDBank and relevant legal acts adopted by the RA Central Bank.

As of 31/12/2024 no violations in terms of normatives have been identified.

Strategic risk management

In order to identify and assess the possibility of strategic risk, the Bank has implemented a Risk Appetite Monitoring System. In case of deviations from the risk appetite defined by the strategy, the Bank takes appropriate steps to reduce the risks.
