IDBank is looking for an experienced, motivated and qualified candidate to fulfil the responsibilities listed below.

## JOB RESPONSIBILITIES

- Develop, implement, and maintain statistical and machine learning models, including credit risk scorecards, behavioral models, and customer segmentation tools.
- Conduct data-driven analysis to support business decisions, improve risk assessment, and enhance model accuracy.
- Lead the design and validation of credit risk scorecards (application, behavioral, and collection) using advanced statistical techniques such as logistic regression, decision trees, and machine learning algorithms.
- Perform data extraction, cleaning, and transformation from multiple sources to build robust datasets for modelling and reporting.
- Calculate and monitor expected credit losses (ECL) under IFRS 9, including staging assessment, probability of default (PD), loss given default (LGD), and exposure at default (EAD) modelling.

## REQUIRED QUALIFICATIONS

- Bachelor's degree or higher in a quantitative field such as Applied Mathematics, Statistics, Econometrics, Data Science, Engineering, Finance, Economics, or Computer Science.
- At least a 2-3 years experience in the banking system or in related sphere.
- Strong knowledge of Credit Risk and/or Market Risk methodologies, including scorecard modelling, PD/LGD/EAD estimation, and portfolio monitoring techniques.
- Deep understanding of the IFRS 9 framework and its application in calculating Expected Credit Losses (ECL).
- Familiarity with prudential standards and regulatory requirements set by the Central Bank of Armenia.
- Strong numerical, analytical, and research skills, with the ability to translate complex data into actionable insights.
- Advanced Microsoft Excel skills and experience with statistical and reporting tools such as SPSS, R, Python, and SQL-based databases.
- Experience in data science and modelling techniques (e.g., logistic regression, decision trees, machine learning) is highly desirable.
- Prior work experience in financial risk management, treasury, or banking will be considered a strong advantage.
- Excellent communication skills with the ability to document methodologies clearly and present results effectively to both technical and non-technical stakeholders.

## **ADDITIONAL INFORMATION**

After successful completion of the probation period, the Bank offers its employees a wide range of privileges, particularly, a comprehensive medical insurance package, a comprehensive bonus plan, a corporate package for sports club services, banking services on preferential terms, etc.

## **APPLICATION PROCEDURES**
