6. The social package account can be changed only in the new budget year before the transfer of the first amount of social package for the current year.

7. In case of submission of an account closure application by the Client, the account shall be closed within 1 (one) banking day.
8. The rights and obligations of the parties in terms of opening, maintaining and cash servicing of social package accounts are defined by a relevant agreement.
9. Interest calculated on the balance of the social package account is accrued on a monthly basis.
10. Interest accrued on social package account is paid in AMD.
11. Interest on the funds available on the social package account is accrued starting from the day of deposit of funds until their return to the Client or until the day preceding withdrawal of funds from the Client's account on another basis.
12. The Bank reserves the right of a tax agent to calculate and pay income tax (10%) from interest received on account as defined by law.
13. Attention – Interest against funds available on the Client's account is calculated based on the nominal interest rate. And the annual percentage yield indicates the income of the Client to be received as a result of making mandatory deposit payments and receiving the earned interest amounts at defined intervals. The order of calculation of annual percentage yield can be found at the following link [Annual percentage yield calculation](#).
14. The annual percentage yield (APY) calculated without the income tax and with annual simple interest rate of 1%: $APY=1.01\%$.

$$A = \sum_{n=1}^N \frac{K_n}{(1 + APY)^{\frac{D_n}{365}}}$$

Where:

APY – annual percentage yield,

A – initial deposit amount,

n – serial number of cash flows against the deposit,

N – the last number of cash flows against the deposit (including cash flow at the moment of opening the deposit) after which the deposit agreement term is considered to be expired.

K_n – flows of capitalized interest amounts at the moment of opening a deposit and/or deposit opened during the term of the deposit, as well as mandatory payments if any.

D_n – the number of days between the date of opening a deposit and each n-th deposit-related cash flow included. When cash flows occur at the moment of opening a deposit, $D_1=0$.

Example of annual percentage yield calculation:

Deposit start date: 01.08.2018
Deposit amount: 72,000 AMD

Annual interest rate: 1.00%
Deposit term: 365 days
Amount of income tax: 10%
Calculated interest amount: $72,000 \times 1.00\% : 365 \times 364 = 718.03$
Income tax: $718.03 \times 10\% = 71.80$
Interest income received by the depositor: 646.23 AMD

15. Withdrawal of funds from the Client's account is performed no later than on the banking day following submission of the relevant payment order to the Bank.
16. Funds directed to the Client's account are credited to the Client's account no later than within one day after admission of the relevant payment order by the Bank.
